

TEACHER (BA)

For the Teacher Training programme we are looking for young matriculated people with an open mind and multi-faceted interests, who are enthusiastic and committed to teaching 6 – 12 year olds.

After completing the 8 semester training you will be eligible to teach all subjects at low level at elementary schools. In addition to the Teacher Training programme you will be able to choose nationality specialization and/or cultural studies.

Cultural studies: Hungarian language and literature, mathematics, physical education, visual education, environmental studies, song-music, and German or English. Cultural studies can be chosen during the course of the training.

The graduate will be able to teach the chosen subjects to classes 5-6 at elementary schools.

NATIONALITY SPECIALIZATIONS

- Nationality German
- Nationality Croatian
- Nationality Gypsy/Roma

In national public education institutions only teachers with nationality specialization can be employed.

At EJF we have a long tradition of training and the methodological experience in the teaching of nationality specialization.

Students in specialization training, are able to teach mother-tongue nationality language to classes 1-6 at elementary schools, teach all cultural areas in Hungarian to classes 1-4, and teach subjects in the given nationality language.

The specialization must already be indicated on the application document. In such cases a German/Croatian/Gypsy-Roma aptitude exam will be administered.

The nationality specialization diploma is the equivalent to an advanced C1 language exam.

KINDERGARTEN TEACHER (BA)

For Kindergarten Teacher Training programme – a 6 semester training- we are looking for matriculated candidates who would like to work with 3-7 years old children, who are child-centred and have the capacity to establish good relationships.

Our aim is to educate teachers, who have a solid professional knowledge, and, with the right methodology, are able to help in the development of the multi-faceted personalities and abilities of kindergarten children.

NATIONALITY SPECIALIZATIONS

- Nationality German
- Nationality Croatian
- Nationality Gypsy/Roma

The specialization must already be indicated on the application document. In such cases a German/Croatian/Gypsy-Roma aptitude exam will be administered.

Students in specialization training, are able to perform educational tasks in Hungarian and a given nationality language. The nationality specialization diploma is the equivalent to an advanced C1 language exam.

A precondition to being able to teach at a national public education institution is the completion of a nationality specialized degree.

APTITUDE TEST

For Teacher and Kindergarten teacher training, applicants are required to complete a song-music, speech and physical aptitude test, while for those, who choose nationality specialization, a nationality language aptitude test needs to be completed. (German/Croatian/Gypsy-Roma). For more information please feel free to contact the Academic Group: to@ejf.hu

FOUNDATION LANGUAGE YEAR

For candidates who are insecure in their language skills we are launching a so-called Croatian/German language foundation year for Teacher and Kindergarten Teacher nationality specialization, both for full time and correspondence students.

"In my search for a higher education institution, I was looking for one that had outstanding practical training and offered genial and direct contact between teacher and student. The practical possibilities and the familiar atmosphere at the EJF provides me with all this."

BUSINESS ADMINISTRATION AND MANAGEMENT BACHELOR DEGREE (BA)

THE PURPOSE OF THE TRAINING:

Training of economic professionals, who will be capable of planning and analysing the processes of economic organizations and institutions, management, business organisation as well as entrepreneurial activities and processes. In addition they acquire the required knowledge in order to be able to continue in the second cycle of the training.

Our goal is for our students to be able to work in the business environment, at budgetary organizations, or other organizations/companies straight after graduation.

DUAL TRAINING

József Eötvös College has been offering dual training since 2015, which, thanks to the dual training development, is also available in Business Administration and Management specialization.

Practice, financial autonomy, career opportunities: this is what dual training means, and which is becoming increasingly popular throughout Europe, as well as in Hungary.

Dual training is an innovative form of higher education, with which, on completion, the freshly graduated student has already many years of professional experience when entering the labour market.

During the dual training, Hungary's innovative companies and the best prepared educational institutions work together in order to enable young people with immediately usable knowledge to enter the labour market within a few years.

During the modern dual economics training the students acquire theoretical knowledge in the first half of the academic year, while in the second half of the year they receive practical experience working in a practical training place, where they get a paid job and acquire specialized knowledge.

The students receive an income for four years from the practical training company, moreover the students may also receive a scholarship, thus making it possible for the students to become financially independent. Employees with a dual degree are more sought after than other graduates, at the same time during their studies they are able to build corporate and sector specific capital which can be the basis of a successful career.

SPECIALIZATIONS

Entrepreneurship Specialization

This course prepares managers for small and medium sized companies both on the theoretic and practical level (business start-ups, business planning, operations, finance, quality management, and marketing).

The graduate student can be employed in companies and organizations, equally in managerial, financial or HR areas.

State government Specialization

The purpose of this specialization is to provide a qualification (lacking in this area) which is useful at budgetary organisations, institutions, and at local-governments in managerial and management- organisational tasks thus, providing good job opportunities for graduate students in this area.
